Vision Mesh is a PVC coated polyester mesh designed for outdoor applications. Its construction consists of a 2 x 2 weave pattern with a square hole configuration for greater versatility.

Its high UV, Shade, Wind and Rain Block characteristics make it the ideal outdoor fabric for all weather applications.

Fire rated and abrasion resistant Vision Mesh offers great shading solutions without restricting airflow or cross ventilation and comes with a 5 year performance warranty. Vision Mesh is a LEAD FREE product which helps to safeguard your health and is suitable for...patio, pergola, carport, veranda and household blinds and screens.
